

4. SHETI Project

Graphic Design

A3, 2021

The *SHETI* (*Spread Hangul to Extra-Terrestrial Intelligence*) project is a virtual project delivering the Korean writing system to a Vega star, where aliens are expected to exist. Two kinds of the metal board are imprinted with dots and lines symbolizing Korean notations and images. This piece was inspired by the Voyager Golden Records which was included in a Voyager spacecraft to communicate a story of our world to extraterrestrials.

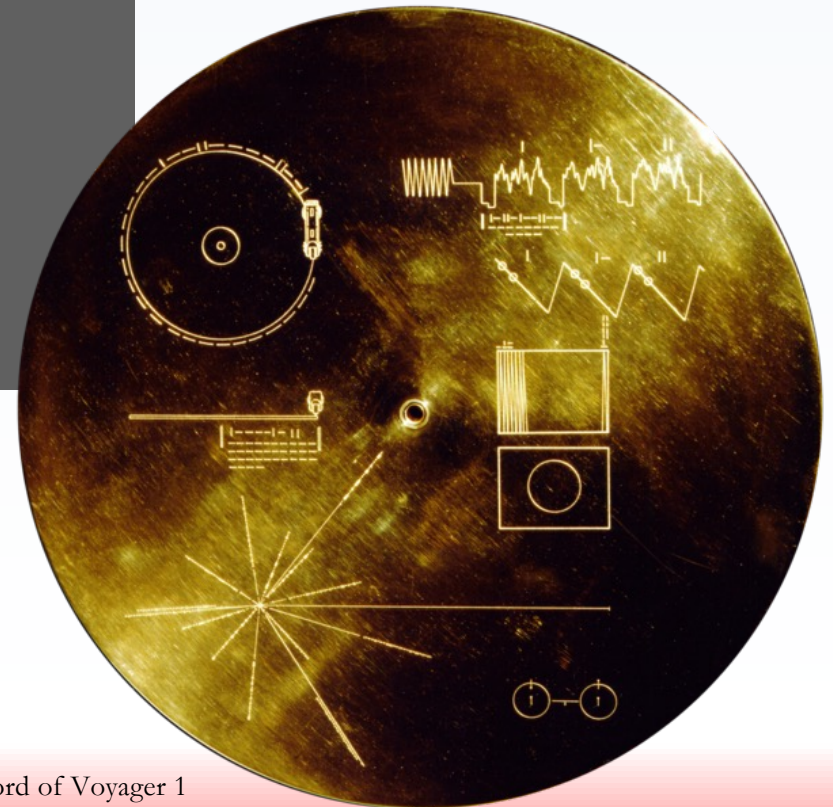

The diagram illustrates the simplification of the Korean alphabet (Hangul) by showing two sets of characters on a grid. The left set shows characters with multiple strokes and dots, while the right set shows the same characters simplified into single, continuous strokes. Below the diagrams is a table summarizing the simplification process.

	콘	택	트
조절점 개수	?		
획의 개수	5	7	4
초/중/종성	11/3/2	12/3/1	12/2

ㄱ(1) ㄴ(2) ㄷ(3) ㄹ(4) ㅁ(5) ㅂ ㅅ ㅇ
ㅈ ㅊ ㅋ(11) ㅌ ㅍ ㅎ(14)

ㅏ ㅑ ㅓ ㅕ ㅗ ㅛ ㅜ ㅠ ㅡ ㅣ

The simplifying process of the writing system of *Hangul*, the Korean alphabet

Inspiration - The Golden Record of Voyager 1

I displayed them in the exhibition at the end of the semester
